

KIWIZ TEST DRIVE CHECKLIST

Make :
 Model :
 Year :
 Mileage :
 VIN :

Test Drive :

During a test drive, take the time to drive the car around town and on the highway. Some mechanical defaults only appear above 80 km / h.

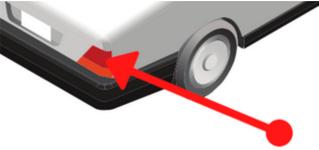

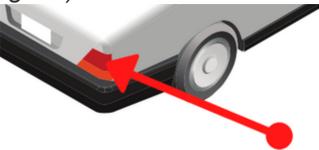

Performs emergency braking, that is to say drive at 30 km / h and brake hard. The car is supposed to brake quietly and in a straight line.

Likewise, gradually accelerate and see if the speed increase is linear. If you feel jerks then there is a problem (or a turbo 😊)

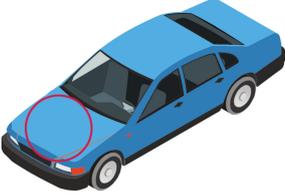

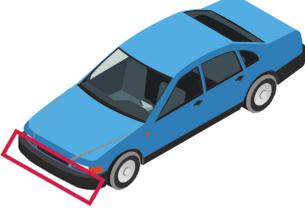

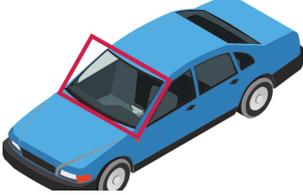

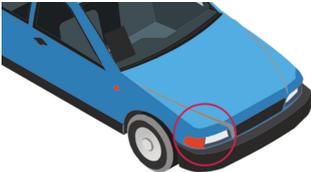

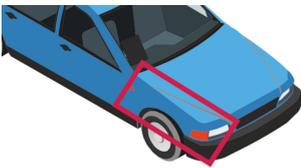

Aesthetic and functional inspection :

	😊	🙂	😐	😞	😡	Notes
To begin with, stand on the outside driver side of the car						
What is the condition of the rear optical unit ? 	Excellent	Opaque	Presence of humidity	Broken		
What is the condition of the rear fender ? 	Excellent	Good	Bad	Scratches	Rusty	

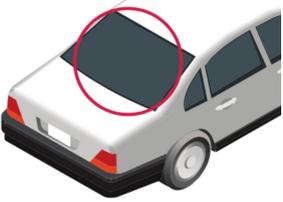

<p>The wear indicators are... (A wear indicator is a small rectangle sunk into the grooves of a tire) (check on the 4 tires)</p> 	deeper than the tire grooves 😊		flush with the tire grooves 😞		The tires seems flat	
What is the condition of the rear door ?	Excellent	Good	Bad	Scratches	Rusty	
The opening of the rear door is ...	Functional			Unfunction al		
What is the condition of the front door ?	Excellent	Good	Bad	Scratches	Rusty	
The opening of the front door is ...	Functional			Unfunction al		
<p>What is the condition of the underbody ?</p> 	Excellent	Good	Bad	Scratches	Rusty
